Every agency owner is being told AI changes everything

Few have heard from anyone who’s actually run that change inside a real agency.

No pitch. No hype cycle. Just what’s deployed, what’s paying off, and what the agency of the future looks like from the inside.

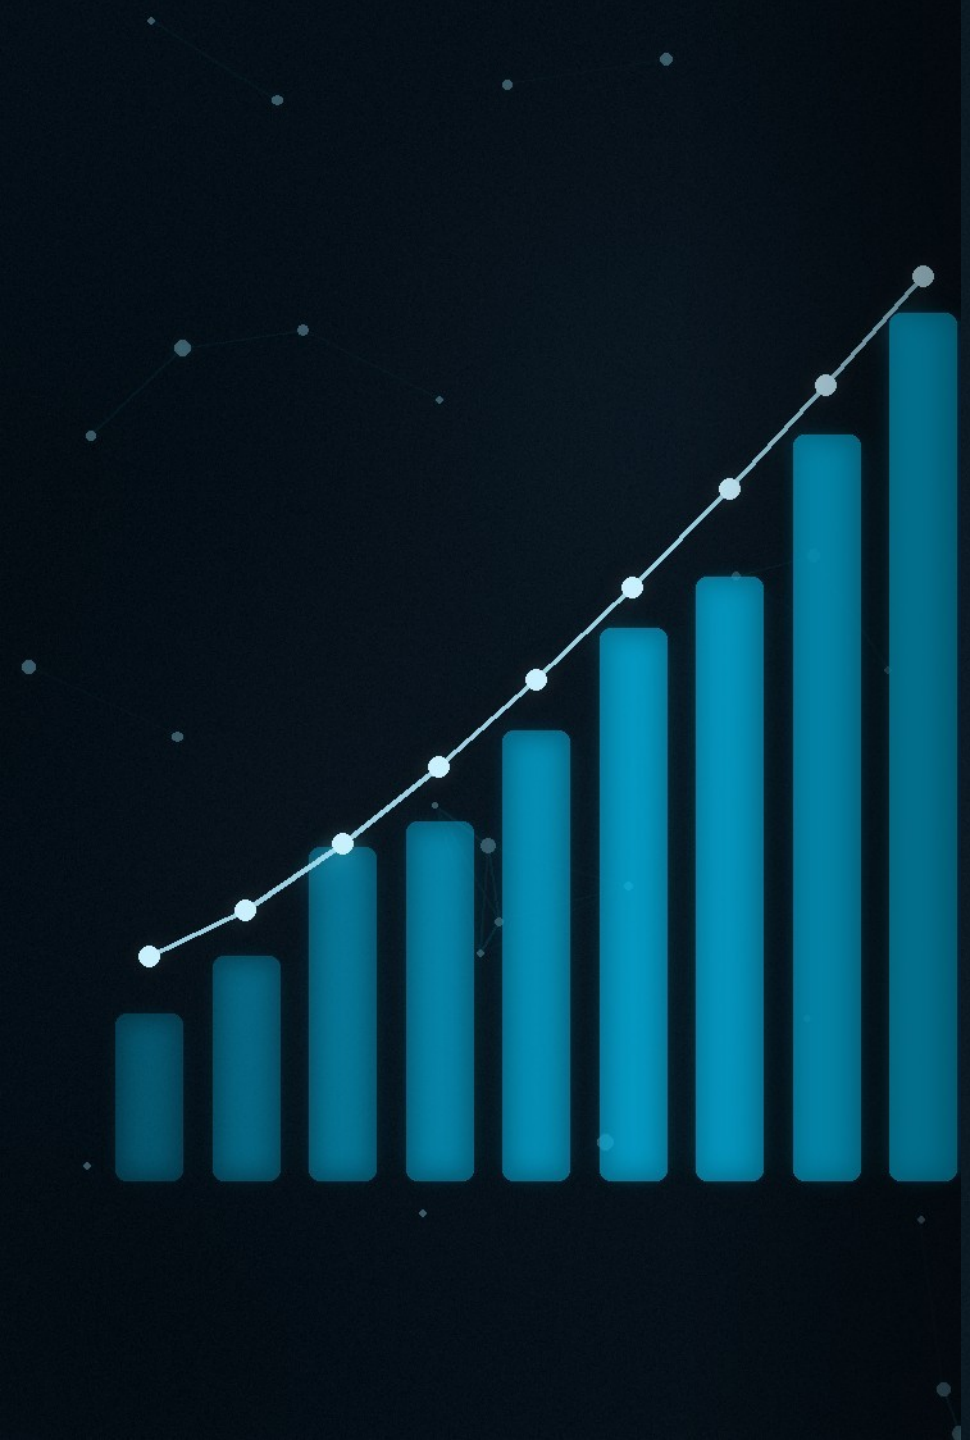

HD

What We'll Cover

1. Where AI is actually deployed inside agencies today
   and where it's stalled out
2. What's changing in search, client demand and service delivery
   and what isn't
3. What the agency of the future looks like
   team structure, headcount, service mix
4. What agency owners get wrong about AI
   and what to focus on instead

TOPIC 01

Where AI Is Actually Deployed Inside Agencies Today

HD
HENNESSEY
DIGITAL

Deployed vs. Stalled Out

Deployed and paying off

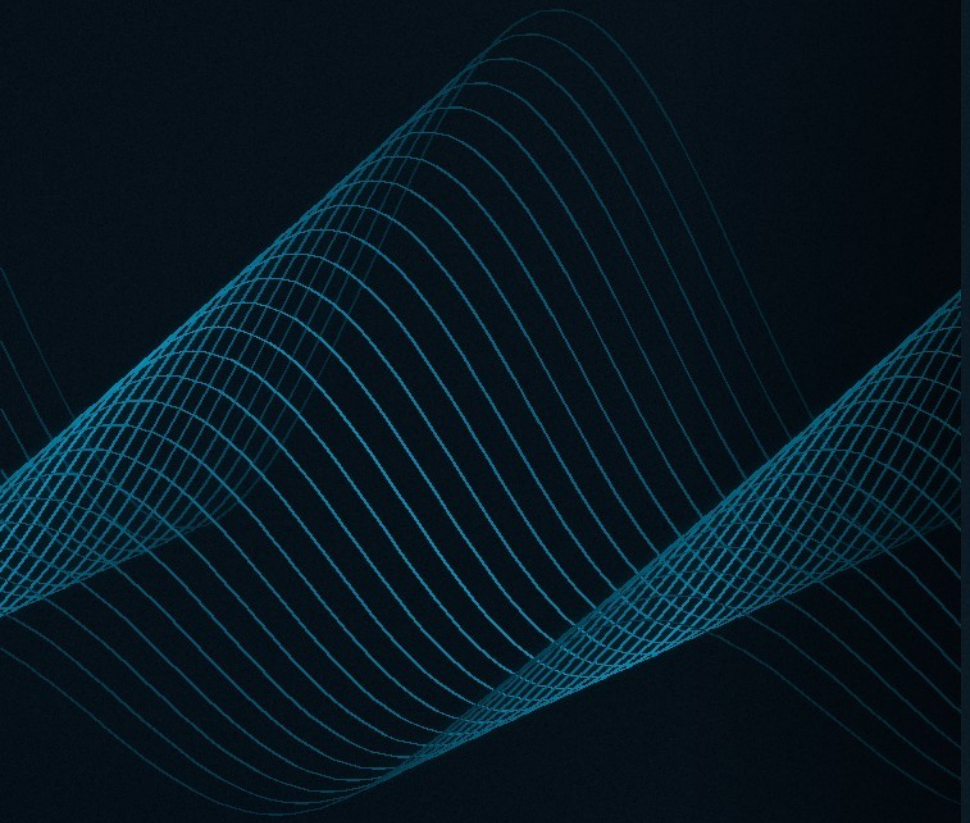

Which AI workflows are running inside real agencies today, and where are they earning their keep?

Stalled out

Where have AI rollouts stalled, and what’s holding them back?

HD

DIGITAL

TOPIC 02

What’s Changing in Search, Client Demand and Service Delivery

HD
HENNESSEY
DIGITAL

What’s Changing, and What Isn’t

Search

How is AI reshaping how clients’ customers search and find them?

Client demand

What are clients asking agencies for now that they weren’t a year ago?

Service delivery

How is the work itself getting done differently, and what still needs people?

TOPIC 03

What the Agency of the Future Looks Like

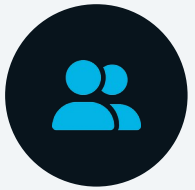

HD
HENNESSEY
DIGITAL

The Agency of the Future, From the Inside

Team structure

How do roles and reporting lines change when AI is part of the team?

Headcount

Does the agency of the future get smaller, or just different?

Service mix

Which services grow, which shrink, and which are new?

HD
HENNESSEY
DIGITAL

TOPIC 04

What Agency Owners Get Wrong About AI

HD
HENNESSEY
DIGITAL

Common Mistakes, and Where to Focus Instead

What owners get wrong

Where are agency owners misreading AI, or spending effort in the wrong place?

What to focus on instead

What should owners prioritise now to be well placed in five years?
